Speech Transfer System

Description

This system provides assistance for clear communication where normal speech is impaired by use of glass, security screen or other similar barriers.

There is a hearing loop facility included with this system. This provides assistance for hearing aid or cochlear implant users where high background noise is a problem or clear speech is restricted.

Applications

For use in any situation where one to one communication takes place at a counter, booth or desk, such as in:

- Banks
- Post offices
- Theaters
- Information Centers
- Airports
- Ticket Counters

Components

- Driver
- Aerial
- Microphone
- Speaker
- Power Supply
- Signage
- Fixings

Please see next page for specific parts.

Standards

- CE, ROHS and WEEE compliant
- BS EN 60118-4, when correctly installed
- Designed to meet IP50
- Designed to meet IP54 (customer side only)
