SupaLoop Kits

Description

This Contacta Counter Loop provides assistance for clear communication with hearing aid or cochlear implant users where high background noise is a problem or clear speech is restricted, particularly at counters, booths, desks and similar locations.

Both the under counter and over counter systems can be installed into many positions. The under counter option has a flexible aerial that can be bent to shape and the over counter option features an aerial built into a low profile sign.

Applications

For use in any situation where one to one communication takes place at a counter, booth or desk, such as in:

- Banks
- Post offices
- Supermarkets
- Theatres
- Information Centres
- Airports
- Pharmacy Counters
- Libraries
- Doctors Offices

Components

- IL-A11 Driver or IL-AE99 Under the Counter Aerial
- M72, M73, or M300 Microphone
- PS-55 Power Supply
- Signage
- Cable Fasteners
